## What People Are Saying About Us

### Smallpdf is 20 stars, not just 5.

"Have been using Smallpdf for several years. The program is extremely easy to use, well designed, and includes everything needed to work with pdf files. I've contacted support twice and both times they responded within several hours (even on a weekend) with excellent suggestions and follow-up. This company is doing everything right. Don't hesitate to use Smallpdf."

### Quick and easy way to convert all kinds of digital documents/files

"We have been using Smallpdf for a few years and it's a very quick and easy way to convert all kinds of digital documents/files and allows you to do so much more. Have had issues an odd time but they always give a prompt response and were keen to resolve it. For the annual cost, I wouldn't have any problem recommending it to others."

### Been using Smallpdf since 2017!!

"Been using Smallpdf since 2017, never had a single problem! I started using this service to merge and shrink large presentations for my business. Now I use it for personal as well. Consolidated photo albums, and compressed. It's fantastic!"
